Training and Workforce Planning

Describe the arrangements in place during the last financial year for identifying, planning and meeting the training needs of staff employed by the service provider

Mandatory training is undertaken by all employees and refresher t raining is undertaken as required. Every service has it's own training matrix which service managers keep up to date and reflects current staff training requirements and training completed. Employee one to one's are undertaken and recorded quarterly as per regulation 36 and an annual appraisal is completed providing support and praise and setting SMART goals including their training needs for the year going forward.

Describe the arrangements in place during the last financial year for the recruitment and retention of staff employed by the service provider

Services now have their own recruitment officer and advertise on We Care Wales and attend regular recruitment days along with lo cal councils, job centre's and colleges. And the recruitment officer also supports with pre-screening of potential candidates. Over the last year Radis worked alongside local authorities and i mprovements to T's & C's were applied where possible. To assist with retention we pay for staff's initial SCW registration and contin ue to support throughout employment.

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

Support plans are person centred and created around the persons needs in line with Regulations 15 and 17. The support plan is co-produced with the person and includes many sections whi ch are then written in the first person. For example, what import ant to me? The persons response may be "I want to stay at ho me" The support plan would state "I wish to remain in my own h ome" The person would then re-read their care plan and sign if they agree with everything written. The support plan will also in clude positive risks. There may be occasions where an individu al may not want to discuss all of their needs. This is then review ed three months as per Regulation 16 and the support plan is c hanged of required. Spot checks are also carried out to ensure that people are happy with the support being provided by the st aff and that staff are carrying out their duties in a respectful manner.

Talking with service users during the internal quality audit, all the people felt felt supported and that they were treated with dign ity and respect. They felt that they had a good relationship with staff and the manager and were happy with their support sched ules.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

In line with Regulation 16 support plans are reviewed every thre e months. This will include the person receiving the care and p otentially a family member. During the review if there are any ch anges, the support plan would be updated and signed.

If changes occurred sooner than the expectation of three mont hs a support plan review would be held earlier and the required changes made. These would then be assessed to ensure that t he changes made were working. And that the support that is be ing provided promotes safety and well-being as outlined in Reg ulation 21 and Regulation 23.

Speaking with service users, all felt they were supported to mai ntain their independence and in one of our extra care schemes, service users had formed had been supported to start up their own "Nana's Knitting" group.

The extent to which people feel safe and protected from abuse and neglect.

All staff prior to commencing employment are required to carry out mandatory AWIF training. One of the courses covered is Sa feguarding. This is classroom based which also includes an ass essment at the end.

Staff are also required to carry out online learning through our e-learning platform 'Bridge'. All new staff have to complete this prior to starting employment. Staff are then required to complet e the Bridge Safeguarding course annually. This then documen ted on the service training matrix. staff are also required to familiarise themselves with company's Safeguarding policy and procedure for for reporting (Regulation 12, 26 and 27).

As much as possible, people will receive support from staff they know and that staff remain consistent. Where a change of staff is required due to e.g. sickness, people will be informed of the change as soon as possible.

Quarterly reviews and spot checks are conducted and also quality monitoring calls are made by the company's compliance team to ensure that people feel safe with the support they are receiving.

During discussions with service users they stated that they felt safe and supported within their homes and that they had a goo d relationship with staff. They knew the Radis complaints proce dure and knew who to contact.

If changes occurred sooner than the expectation of three mont hs a support plan review would be held earlier and the required changes made. These would then be assessed to ensure that t he changes made were working. And that the support that is be ing provided promotes safety and well-being as outlined in Reg ulation 21 and Regulation 23.

People are supported in attending social activities within our ext ra care schemes to support their mental health and wellbeing a nd this was recognised in having conversations with service us ers and family members through our internal audit.

The extent to which people feel safe and protected from abuse and neglect.

All staff prior to commencing employment are required to carry out mandatory AWIF training. One of the courses covered is Sa feguarding. This is classroom based which also includes an ass essment at the end.

Staff are also required to carry out online learning through our e-learning platform 'Bridge'. All new staff have to complete this prior to starting employment. Staff are then required to complet e the Bridge Safeguarding course annually. This then documen ted on the service training matrix. staff are also required to fami liarise themselves with company's Safeguarding policy and proc edure for for reporting (Regulation 12, 26 and 27).

As much as possible, people will receive support from staff they know and that staff remain consistent. Where a change of staff is required due to e.g. sickness, people will be informed of the change as soon as possible.

Quarterly reviews and spot checks are conducted and also qua lity monitoring calls are made by the company's compliance tea m to ensure that people feel safe with the support they are rece iving.

We are currently working towards the five areas of improvemen t set out in in our last inspection from March 2023.

Service users are contacted as part of our internal audit proces s. In our last audit 100% people said that they felt safe and sup ported, they knew which staff members were going to be visiting them and felt they were treated with dignity and respect. People were provided choices by staff and always gained consent prior to being assisted with their care.

In line with RISCA regulations a meet and greet is set up with the individual and family members/friends if required, prior to the pack age starting as per Regulation 14. This meeting is held with team leaders who have extensive training on person centred planning and risk assessment training in line with Regulation 15 and 17. This meeting will discuss the needs of expectations of the person. For extra care usually the housing manager will also hold a meeting. The support plan is the created, discussed with the person receiving services and placed in their 'home folder' before their services commence. included in this will be a copy of our Statement of Pur pose and a Customer User Guide explaining the service as required by Regulation 19.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

Support plans are person centred and created around the persons needs in line with Regulations 15 and 17. The support plan is co-produced with the person and includes many sections whi ch are then written in the first person. For example, what import ant to me? The persons response may be "I want to stay at ho me" The support plan would state "I wish to remain in my own h ome" The person would then re-read their care plan and sign if they agree with everything written. The support plan will also in clude positive risks. There may be occasions where an individu al may not want to discuss all of their needs. This is then review ed three months as per Regulation 16 and the support plan is c hanged of required. Spot checks are also carried out to ensure that people are happy with the support being provided by the st aff and that staff are carrying out their duties in a respectful ma nner.

Speaking with service users during our quality audit they all felt that their needs were listened to and they were happy with the support they were receiving. People were always spoken to and consent gained prior to any support provided.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

In line with Regulation 16 support plans are reviewed every thre e months. This will include the person receiving the care and p otentially a family member. During the review if there are any ch anges, the support plan would be updated and signed.

If changes occurred sooner than the expectation of three mont hs a support plan review would be held earlier and the required changes made. These would then be assessed to ensure that t he changes made were working. And that the support that is be ing provided promotes safety and well-being as outlined in Reg ulation 21 and Regulation 23. The extent to which people feel safe and protected from abuse and neglect.

All staff prior to commencing employment are required to carry out mandatory AWIF training. One of the courses covered is Sa feguarding. This is classroom based which also includes an ass essment at the end.

Quarterly reviews and spot checks are conducted and also quality monitoring calls are made by the company's compliance team to ensure that people feel safe with the support they are receiving.

As yet, our Western Bay service has not been inspected under the RISCA regulations.

Service users stated they felt safe and supported and if they ha d any issues they knew who to contact and that all numbers the y might need were in their service user guide. They felt they ha d a good relationship with staff and the manager and could talk to them if needed.
